Objective

Motivated Full Stack Developer with hands-on experience building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing RESTful APIs, authentication systems, responsive user interfaces, and real-time dashboards. Strong understanding of clean architecture, database design, debugging, and modern web development practices. Passionate about building efficient, user-focused applications and contributing to real-world software products.

Skills

- **Frontend** : React.js, JavaScript (ES6+), HTML5, CSS3, Responsive web design
- **Backend** : Node.js, Express.js,REST APIs, Authentication & Authorisation
- **Databases** : MongoDB, MySQL
- **Programming** : Java, C, PHP , JavaScript
- **Concepts** : CRUD Operations ,DBMS,State Management
- **Tools** : Git, Postman, XAMPP,Local storage,API Integration

Training & Certifications

- Brillio 2023 - 2024
  Pre-Onboarding Trainee (LBJ Program)
  * Successfully completed the Learn Before Joining (LBJ) onboarding program.
  * Participated in a 4-month internal hackathon collaborating with a development team on problem-solving and software implementation.
  * Secured 2nd Runner-Up position in the Sparxelerate Hackathon.

- Cuvette 2025 - 2026
  Full Stack Developer Trainee
  * Completed hands-on Full Stack Development training focused on scalable MERN stack applications.
  * Built real-world projects involving REST APIs, frontend-backend integration, authentication, and deployment workflows.
  * Worked with Git version control, debugging practices, and modular code architecture.
  * Improved application performance and code maintainability through reusable components and clean coding standards.

Education

- Anurag Group of Institutions 2019-23
  B.Tech – Information Technology
  8.84

- Narayana Junior College 2017-19
  Intermediate
  97.3

- Kendriya Vidyalaya No.1 Uppal 2016-17
  Schooling
  10

Projects

- API Tracer Management System – Full-Stack Monitoring Dashboard
  * Developed a full-stack API monitoring dashboard to track request latency, error rates, and API logs in real time.
  * Implemented custom Express middleware for monitoring and debugging API requests.
  * Designed responsive frontend dashboards for improved observability and user interaction.
  * Built scalable backend architecture using Node.js, Express.js, and MongoDB.
  Tech:React.js,MongoDb,Express.js,Node.js, Javascript,Css,HTML
  Link:https://apitracer.netlify.app

- Restaurant Management System – Full-Stack MERN Project
  * Built a complete restaurant management platform featuring customer ordering and admin dashboard functionality.
  * Developed REST APIs for order lifecycle management, menu handling, and table management.
  * Implemented responsive UI with dynamic state updates for real-time order tracking.
  * Structured backend services with modular routing and scalable MongoDB schema design.
  Tech:React.js,MongoDb,Express.js,Node.js, Javascript,Css,HTML
  User application: https://usersappt.netlify.app(Open in mobile view)
  Dashboard: https://restaurantpp.netlify.app

- Memories – MERN Stack Social Application
  * Developed a full-stack social media-style application supporting post creation, editing, deletion, and media uploads.
  * Implemented authentication and protected routes for secure user access.
  * Designed RESTful APIs and MongoDB schema models for efficient data management.
  * Built responsive React interfaces with real-time state updates and seamless user interaction.
  Tech: React.js, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS
  Link : https://mymemoriesp.netlify.app/
- Note Maker - React Application
  * Built a responsive note management application with group categorization and reusable React components.
  * Implemented LocalStorage persistence for data retention across sessions.
  * Used React hooks for real-time state updates and optimized user interaction.
  Tech:HTML,CSS,Javascript,React.js
  Link : https://notemakerpro.netlify.app

Certificates

- Learn Before Join (LBJ) Curriculum - Brillio
- 2nd Runner up - Sparxelerate hackathon
- Full stack developement - Cuvette

Leadership

- Class Representative
- Event lead - Codechef chapter
- Department Head - Tech fest
