HEKKADKA TANMAI

Hyderabad, Telangana | +91 9701420044 | htanmai23@gmail.com |LinkedIn |GitHub | Portfolio

PROFESSIONAL SUMMARY

Fresher Full Stack Developer (B.Tech IT, 2023) with hands-on project experience building scalable MERN applications using React.js, Node.js, Express.js, and MongoDB. Skilled in designing RESTful APIs, JWT authentication, Docker, GitHub Actions CI/CD, and building AI-powered applications including LLM integration and Retrieval-Augmented Generation (RAG) systems using Google Gemini API, LangChain, and Qdrant.

TECHNICAL SKILLS

Languages: JavaScript, Java, C

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Axios

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Express Middleware, Google Gemini API, LangChain

Databases: MongoDB, Mongoose, MySQL, Qdrant (Vector Database)

DevOps & Cloud: Docker, Docker Compose, GitHub Actions, CI/CD, Netlify, Render, Vercel

Tools: Git, GitHub, Postman

Concepts: OOP, DBMS, MVC Architecture, State Management, Authentication & Authorization, LLM Integration, Prompt Engineering, RAG, Vector Embeddings, Semantic Search

PROJECTS

AI Chatbot *React.js | Node.js | Express.js | MongoDB | Google Gemini API*

- Built a full-stack AI chatbot with persistent chat history, supporting chat creation, retrieval, renaming, and deletion.
- Integrated the Google Gemini API and developed 6+ RESTful APIs with MongoDB to deliver AI-powered conversations.
- Containerized the application using Docker and implemented GitHub Actions CI/CD to automate build and deployment.

GitHub | Live Demo

SMART – Study Material, Assessment and Resource Tools *React.js | Node.js | Express.js | MongoDB*

- Developed a full-stack Railway Institute Document Management Portal to centralize training manuals and learning resources.
- Built RESTful APIs with complete CRUD functionality, category-wise organization, and search across resources.
- Deployed for real-world use at Zonal Railway Training Institute (ZRTI), actively used by trainees to access training materials.

GitHub |Live Demo (Trainee) | Live Demo (Admin)

DocuChat AI – RAG-based PDF Q&A System *React.js | Node.js | LangChain | Google Gemini API | Qdrant | MongoDB*

- Built a full-stack Retrieval-Augmented Generation (RAG) system enabling users to upload a PDF and ask natural-language questions answered from its content.
- Built a document ingestion pipeline with LangChain's PDF loader and RecursiveCharacterTextSplitter (1000-character chunks, 200-character overlap) for accurate retrieval.
- Generated vector embeddings with the Google Gemini API and stored them in Qdrant, retrieving the top-3 most relevant chunks per query via semantic similarity search.

GitHub| Live Demo

Restaurant Management System *React.js | Node.js | Express.js | MongoDB*

- Built a full-stack restaurant platform with customer and admin dashboards.
- Developed 20+ REST APIs for orders, invoices, inventory, menu management, and authentication.
- Implemented JWT authentication and role-based access control.

GitHub | Live Demo (User) | Live Demo (Dashboard)

TRAINING & PROGRAMS

Full Stack Development Intern (Training Program) | Cuvette | 2025–2026

- Built RESTful APIs and responsive React.js interfaces integrated with backend services using Node.js, Express.js, and MongoDB.
- Implemented JWT authentication, role-based authorization, and version control workflows using Git and GitHub.

Pre-Onboarding Trainee | Brillio (LBJ) | 2023–2024

- Completed the Learn Before Joining Program and collaborated in a 4-month internal hackathon, securing 2nd Runner-Up in Sparxelerate.

EDUCATION

B.Tech – Information Technology, Anurag Group of Institutions (2019–2023) | CGPA: 8.84

LEADERSHIP

Class Representative | Department Head – Tech Fest | Event Lead – CodeChef Chapter
